

Eyewitness & Window to the Womb 2: The Next Generation ***Pregnancy Care & Counseling Version***

Pregnancy Centers across the nation have used Sonographer, Shari Richard's incredible 1990 edition of *Eyewitness to the Earliest Days of Life* and *Window to the Womb* to educate their clients on life in the womb and facts on abortion. Now through the new release of *Eyewitness & Window to the Womb 2: The Pregnancy Care and Counseling Version*, pregnancy centers, churches and schools will be able to provide the facts about fetal development, abortion complications, post abortion syndrome and healing.
