THE 50 YEAR BATTLE:

Ultrasound: The Window to the Womb vs abortion

Disc 1: Ian Donald "A Prophetic Legacy"

(1910-1987) The pioneer of clinical ultrasound — for such a time as this

A documentary of Ian Donald, the pioneer of clinical ultrasound and the legacy he has left behind. In 1987, Sonographer, Shari Richard, accepted the call to continue Ian's legacy and will take you through the 50-year battle of abortion fought with the powerful truth of **Ultrasound: "The Window to the Womb."** (50 min.)

"My battle against The Abortion Act of 1967 resulted in me showing one of my first ultrasonic film of a moving 12 week fetus to a television audience of over 20 million. The government was furious. My own personal fears are that my research into early intrauterine life may be misused towards its more accurate destruction. Will the gynaecologist of tomorrow, I wonder, be able to withstand the humanist pressure groups, that we may, in the words of a famous Anglican Collect, "So pass through things temporal so that we lose not the things that are eternal." — Ian Donald

Seeing is believing — or is it??? The History • The Lie • The Cover Up • Search to Destroy • The Victims • Is this Choice?

SWI Review: A 20 year journey of Sound Wave Images. (20 min.)

Disc 2: "A Journey From Death To Life"

Hear the voices of men and women who are breaking the silence as they share their personal stories of the tragic grief and pain of abortion. Combined with music and testimony, this message will bring healing and hope — to begin the journey back from death to life, from pain to healing and from denial to purpose. (Full version: 50 min.)

Abridged Version: Perfect for counseling and education in pregnancy centers, schools and churches. (28 min.)

Precious Life: A music video from the unborn babies, displaying their beautiful creation of life in the womb. Using digital ultrasound and embryology, this section is perfect for education and changing hearts. (5 min. / Music in English and Spanish)
